Pursuant to 37 C.F.R. 1.109 and M.P.E.P 1302.14, the following is an Examiner's Statement of Reasons for Allowance:

which may be stored in log files and supplemented with data from other sources, of customer data in order to identify various occurrences of interest corresponding to defined category types. When analyzing a customer's web site interaction data, the parser component can use data defining customer specific categories of web pages. Such high-level types of occurrences can be specified in a variety of ways, such as by using a combination of a logical web site, one or more URIs corresponding to web pages, and/or one or more query strings. And these data parsing information may also specify a mapping of actual web sites to one or more logical sites.

The examiner considers the applicants' claims 1-111 to be allowable based on the claim interpretation and the aforesaid prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
